

USE SECURE PASSMORDS.

KEEP YOUR PASSWORD SAFE BY FOLLOWING THESE EASY TIPS:

DEVELOP strong passwords that use a combination of words, numbers, symbols, and both upper- and lower-case letters

CREATE a password phrase and make it relevant. If you're joining a shopping site for example, think "About to Use Shopping Site" and use "ABT2_uz_\$h0pping"

USE different passwords for every unique account, such as work, banking, and email

DISABLE the "save password" feature in your Internet browser

CONNECT WITH CONNE

- Keep your devices updated with the latest system and application patches
- Assume that Wi-Fi connections are not secure, since many Wi-Fi hotspots don't encrypt the information you send
- Do not log into financial accounts or other sensitive accounts when using public Wi-Fi networks
- Consider turning off features on your computer or mobile devices that allow you to automatically connect to Wi-Fi

PROTECT YOUR MOBILE DEVICE.

- Make sure the OS and software are up to date at all times
- Download apps from reputable sites and closely review permission requests
- Make sure to check the feedback from other users before installing the program from an app store
- Use a strong, complex password
- Use a security app, if available for your device
- Turn off Bluetooth and other connections when not in use

X DON'TS

- Jailbreak your phone
- Download apps from thirdparty app stores and sites
- Leave your mobile device unattended in public places
- Enable your "Wi-Fi ad-hoc mode"

DON'T TAKE THE BALL

- Do not open attachments or click on links from untrusted sources
- Never send personal information in an email
- Keep your firewall and antivirus software updated
